

SAVE OUR SANCTURARY PROJECTS

Funds pledged by members of our congregation, as well as in-kind gifts, have enabled us to make repairs and improvements to our church building and grounds. This is a project status report that will be updated as this important work progresses.

List current as of 5/1/2012

PROJECTS COMPLETED

- 1. Mansard roof replacement.** Started on 7/12/2010 and completed on 9/13/2010.
- 2. Repair of the four "drain pot" areas on the roof above the sanctuary.** Started on 8/28/2010 and completed on 9/13/2010.
- 3. Replace flashing under the high sanctuary windows visible from the front of the building.** Started on 8/28/2010 and completed on 9/13/2010.
- 4. Repair of damaged woodwork on the sanctuary west and east walls and repair of woodwork in the office area where old air conditioners were located.** Started on 9/20/2010 and completed on 9/30/2010.
- 5. Lawn for the east entrance (RE and PM).** DID NOT INVOLVE SOS MONEY. An in-kind SOS donation has been made to accomplish this upgrade.
- 6. Updating of the sound controls, first stage.** A dedicated circuit has been installed at the pass through doors (east end of building).
- 7. Refurbishing restrooms.** DID NOT INVOLVE SOS MONEY. An in-kind SOS donation has been made to accomplish this upgrade.
- 8. Church Signage, Advanced Signs, INC.** The Morrison Street sign has been repainted and the materials to update the front walk sign have been installed.
- 9. Repair water damaged soffits.** The repair work has been completed.
- 10. Hose outlet on the east side of building.** The outlet will be used to water the new grass in the play area and for RE functions.
- 11. Replacement of the water fountain in the multipurpose room with a two level system.** It will accommodate children and adults.

- 12. Lights for the front walk.** Residential lights have been added to the front walk to improve lighting.
- 13. Soft Water Unit installed.** The soft water system will help us reduce the scale build-up in the dishwasher, and will make it more efficient.
- 14. Apartment size refrigerator purchased for the RE wing.** The unit will be placed in the nursery and will allow them to keep baby formula, juices etc. in that area.
- 15. New Cement.** Replacement of the red pavers leading to the trash receptacles with cement, and the repair of damaged areas in the front sidewalk.
- 16. Re-grade and improve drainage for gravel parking lots and improve drainage for the north woods.** The existing drainage line was cleared and additional lines have been installed (October 2011).
- 17. A Welcoming Center.** Built and installed by David Calvin.
- 18. New lap top computer for RE director.** Replaced old computer that was not working well enough.
- 19. Staining of new wood in sanctuary and office.** Completed 2/16/20.
- 20. Replacement of exterior door locks.** This will make the building more secure by reducing the number of keys so that access can be managed better.
- 21. Office upgrade.** Replace existing phones, add wireless package to the copier, new software, replacement of office chair, and new storage containers.

PROJECTS UNDERWAY

- 1. Landscaping the front entrance.** Nicholas Serrano was hired to provide a replanting and landscaping plan of the front entrance to the church. The paver portion of the design is in place, and the main plants have been installed. The rest of the work will be completed next spring.
- 2. Replacement of the old wooden benches in the play area.** DOES NOT INVOLVE SOS MONEY. An in-kind SOS donation has been made to accomplish this upgrade.
- 3. Updating of the sound controls, second stage.** Sound system upgrade and construction of a platform for the sound system.
- 4. Air conditioning for the office area.** Window units will be installed in office windows.
- 5. Staining of new wood in the outside eaves.** To be completed this spring.
- 6. Bulletin Boards for the sanctuary.** Will enhance the sign up sheet area.

PROJECTS UNDER REVIEW

PROJECTS PENDING FINAL COSTS

- 1. Additional lighting for the west and north pulpit locations, and the choir area.** The type of lighting, its location, and the final cost are being determined.
- 2. Computer and projector system upgrade.** Expand the WiFi signal and add wireless connection for the projector. Robert Guillard is the contact person.
- 3 Projector for Adult RE.** Robert Guillard is the contact person.
- 4. Enlarge the choir raisers.** Waiting for design approval.

PROJECTS BEING PLANNED

- 1. Installation of soundproofing between the RE wing and the sanctuary.**
- 2. Replacement of single pane glass ceiling panels above the Memorial Wall at the west end of the sanctuary to reduce energy use.**

3. Provide a covered picnic shelter.

4. Upgrade the RE fire pit area.

If you wish to add a project to this list please contact Bruce Craig at, bcraig@bsu.edu with a description of the project and costs if possible.
